UNDERSEA AND HYPERBARIC MEDICINE
CONTENTS OF VOLUME 33, 2006

Issue 1 – Jan/Feb

The effect of hyperbaric oxygen on intraocular pressure .
D. Ersanli, T. Akin, S. Yildiz, A. Akin, A.H. Bilge, G.. Uzun 1
Clinical observation: Beau's lines on fingernails after deep saturation dives.
H. Schwartz 5
Hypoxemia with air breathing periods in U.S. Navy Treatment Table 6.
L. K. Weaver, S. K. Churchill 11
Wound oxygen levels during hyperbaric oxygen treatment in healing wounds.
M. D. Rollins, J. J. Gibson, T. K. Hunt, H. W. Hopft 17
A prospective, randomized clinical trial comparing two hyperbaric treatment protocols for carbon monoxide poisoning.
N. B. Hampson, R. G. Dunford, D.E. Ross, C. E. Wreford-Brown 27
A pilot study with long term follow up of hyperbaric oxygen pretreatment in patients with locally advanced breast cancer undergoing neo-adjuvant chemotherapy.
S. D. Heys, I. C. Smith, J. A. S Ross, F. J. Gilbert, J. Brooks, S. Semple, I. D. Miller, A. Hutcheon, T. Sarkar , O. Eremin 33
Validity of cycle test in air compared to underwater cycling.
M. Almeling, L. Schega, F. Witten, P. Lirk, K. Wulf 45
Adverse events in competitive breath-hold diving..
J. R. Fitz-Clarke 55
Effects of 30-m nitrox saturation dive on the immune system in man.
T. Shimamiya, N. Terada, S.Wakabayashi , M. Mohri 63
Textbook of Hyperbaric Medicine, K. K. Jain, MD, Editor
Reviewed by Leon J. Greenbaum, Jr. 69

Pages from *PRESSURE* 71

Issue 2 – March/April

Decompression illness presenting as breast pain.
A.J. Trevett, C. Sheehan, Y. Forbes 77
Platelet function in humans is not altered by hyperbaric oxygen therapy.
S. Thom, D. Fisher, J.M. Stubbs 81
Monoplace hyperbaric chamber use of U.S. Navy Table 6: A 20-year experience.
L. K. Weaver 85
Proposing short-term observation units for the management of decompression illness.
R. Tempel, H.W. Severance 89
Hyperbaric nitrogen and pentobarbital on synaptosomal membrane lipids and free fatty acids.
G. Kostopanagiotou ,I. Hamamoto, V. Hartwell, E.M. Nemoto 95
Post-exercise reduction in diffusing capacity of the lung after moderate intensity running and swimming.
E. Thorsen, H. Sandsmark, E. Ulltang 103

Diffusing capacity and spirometry following a 60-minute dive to 4.5 meters.
M.S. Koehle, A.N. H. Hodges, B.M. Lynn , M.F. Rachich, D.C. McKenzie 109
The heart rate of breath-hold divers during static apnea: effects of competitive stress.
P. Lindholm, J. Nordh, M. Gennser 119
Plasma glucose response to recreational diving in novice teenage divers with insulin-requiring diabetes mellitus.
N.W. Pollock, D.M. Uguccioni, G.deL. Dear, S. Bates, T.M.Albushies,S.A.Prosterman 125
The absence of hearing loss in otologically asymptomatic recreational scuba divers.
D. McD, Taylor, J. Lippmann, D. Smith. 135

Pages from *PRESSURE* 143

Issue 3 – May/June

PROCEEDINGS
IXth INTERNATIONAL MEETING
ON HIGH PRESSURE BIOLOGY

Hydrostatic pressure effects on eel mitochondrial functioning and membrane fluidity.
A.Vettier,C. Labbe, A.Amerand, G. da Costa, E. Le Rumeur, C . Moisan , P. Sebert 149
Does hydrostatic pressure have an effect on reactive oxygen species in the eel?
A. Amérand, A. Vettier, P. Sébert, C. Moisan 157
A comparative study of reactive oxygen species in red muscle: pressure effects.
A. Amérand, A. Vettier, P. Sébert, C. Moisan 161
Nitric oxide amplifies the excitatory to inhibitory neurotransmitter imbalance accelerating oxygen seizures.
I.T. Demchenko, C.A. Piantadosi 169
Effects of NMDA administration in the substantia nigra pars compacta on the striatal dopamine release before and after repetitive exposures to nitrogen narcosis in rats.
C. Lavoute, M. Weiss, J.C. Rostain 175
'In situ' high pressure confocal Ca2+-fluorescence microscopy in skeletal muscle: a new method to study pressure limits in mammalian cells.
O. Friedrich, F.V. Wegner, M. Hartmann, B. Frey, K. Sommer, H.Ludwig, R.H.A Fink, ... 181
Recent neurochemical basis of inert gas narcosis and pressure effects.
J. C. Rostain, N. Balon 197
CNS manifestations of HPNS: revisited.
A.E. Talpalar, Y. Grossman 205
Blood biochemical parameters in women during long-term simulated hyperoxic diving up to 8 ATA.
J. Popova, L.Buravkova. 211

Pages from *PRESSURE* 217

Issue 4 – July/Aug

An Active Duty Naval Diver experiencing Tinnitus: A review of Inner Ear Barotrauma, Tinnitus, and its treatment.
C. Duplessis, M. Hoffer 223
Indication for hyperbaric oxygen treatment as a predictor of tympanostomy tube placement.
F. W. Fiesseler, M E. Silverman, R L. Riggs, P. A. Szucs 231
Side effects of hyperbaric oxygen therapy in children with cerebral palsy.
M. Muller-Bolla, J-P Collet, T. Ducruet, A. Robinson 237
Basal ganglia volumes following CO poisoning: A prospective longitudinal study.
D. T. Pulsipher, R. O. Hopkins, L. K. Weaver 245
Storm-Related Carbon Monoxide Poisoning: Lessons Learned from Recent Epidemics.
N.B. Hampson, A.L. Stock 257
Dissociation of neurological deficits in spinal decompression illness.
S. Togawa, M. Maruyama, N. Yamami, H. Nakayama, M. Shibayama, M. Kawashima, K. Shimada, Y. Mano, ... 265
NIHSS applied to cerebral neurological dive injuries as a tool for dive injury severity stratification.
P. Holck, R.W. Hunter 271
The effect of endurance training on the rate of nitrogen elimination in women.
N. Lundsett, U. Wisløff, A. Hjelde, A.O. Brubakk 281
Metabolic production of Carbon Dioxide in simulated sea states: Relevance for hyperbaric escape systems.
M. Tipton, P. Newton, T. Reilly. 291
The effects of hyperbaric oxygen treatment on lipid peroxidation of pregnant rabbits and their fetus during late pregnancy.
X.M. Xiao, Z.H. Ye, Y.Long, S.L. Chen 299

Pages from *PRESSURE* 305

Issue 5 – Sep/Oct

Pneumomediastinum after lung packing.
F.L. Jacobson, S.H.Loring, M. Ferrigno 313

Hyperbaric treatment of arterial CO_2 Embolism occurring after laparoscopic surgery.
R.S. Reust, B.C. Diener, J.S. Stroup, G.D. Haraway 317

Letter to the Editor - The relative safety of forward and reverse diving profiles
J. Risberg 321

Book Review – Handbook on Hyperbaric Medicine, Daniel Mathieu, Editor
Reviewed by C. A. Piantadosi 323

Scientific Abstracts from UHMS Annual Meeting, 2006, Orlando, FL 325

Scientific Abstracts Index 391

Pages from Pressure 393

Issue 6 – Nov/Dec

Hyperbaric oxygenation therapy enhances the protective effect of moderate hypothermia against forebrain ischemia in the gerbil hippocampus.
K. Wada, D. Nishi, T. Kitamura , K. Ono, T. Takahara, T. Shirotani, A. Shimizui 399

Hyperbaric oxygen pre-breathe (hbop) modifies the outcome of decompression sickness.
B.D. Butler, T. Little, V. Cogan, M. Powell 407

Health and efficiency in trimix versus air breathing in compressed air workers.
T.P. Van Rees Vellinga, A.C. Verhoeven, F.J.H. Van Dijk, W. Sterk 419

Hyperbaric Oxygen (HBO_2) in tinnitus: Influence of psychological factors on treatment results?
P. Stiegler , V . Matzi, C Lipp, A. Kontaxis, H. Klemen, C. Walch, F. Smolle-Jüttner 429

Epidemiology of severe carbon monoxide poisoning in children.
J.A. Mendoza, N.B. Hampson 439

Effects of respiratory muscle training on respiratory CO_2 sensitivity in SCUBA divers.
D.R. Pendergast, P. Lindholm, J. Wylegala, D. Warkander, C.E.G. Lundgren 447

Negative-pressure oxygen breathing and head-down tilt increase nitrogen elimination.
J. J. Bodkin, T.B. Curry, C. E. G. Lundgren 455

Alveolar gas composition before and after maximal breath-holds in competitive divers.
P. Lindholm , C.E.G. Lundgren 463

Pages from Pressure 469
